

This is the Template for the Butterflybadge 1-1

- Make sure to insert your artwork in the seperate layer "Your Artwork"
- Delete or Hide the layers "Instruction and Butterflybadge 1-1" before printing to make sure you're not printing this instruction and the badge outlines
- Always make a test print before printing your bulk badges to make sure you can still make adjustments
- Only print the Butterflybadges on a laserprinter, ink from an inkjet printer might not stick to the badge surface
